

# Are you tired of paying for fertility treatments not covered by your insurance plan?

**Do you know about the  
Minnesota Building Families Act?**  
[www.resolve.org/MNAdvocacy](http://www.resolve.org/MNAdvocacy)

The Minnesota Building Families Act has been introduced in our state legislature and, if passed, will require insurers to cover:

- infertility diagnosis and treatment (including IVF),
- standard fertility preservation services for cancer patients and others at risk of medically-induced infertility, and
- fertility benefits for LGBTQ enrollees.

**21 states already have fertility insurance coverage in law.  
Let's make MN next! We need YOUR help to pass this bill.  
Enlist your families and friends, too!**
